Volume 14.

Gas Co. Gets Authority to Raise Gas Rates

MAY NOW INCREASE 25c PER THOUSAND—EFFECTIVE AFTER 20th INST.—NO ARRANGEMENTS YET FOR PUTTING INCREASE INTO EFFECT.

Officers of the Canadian Western Power and Fuel Co., received word from the Board of Public Utilities Commission this morning announcing that the company's request for permission to raise the price of gas to consumers here, had been granted. The Board allows the local company to charge six to a thousand feet for gas to domestic consumers, effective on and after Jan. 20th of this year.

It will be remembered that as a result of the company's request to increase the price of gas, the Board of Public Utilities held a session in Medicine Hat last fall in which representatives of both the town and the company were present. On that occasion the gas situation was gone into by both representatives of the company and the town. No decision was given by the Board at the time as the commissioners wanted time to make further investigation. The finding as announced above is the result.

Local residents of the city are informed as that no decision has been reached as yet as to whether the price will go into effect.

The finding of the Board will be no surprise to the citizens of the town. It was generally believed that under the circumstances the company's request would be granted. The public has long since been given an additional cost to the production of any commodity always falls on the consumer of that commodity.

The additional six to a thousand increase of from \$1.50 to \$2.00 a year to the consumers during the low weather.

ANNUAL MEETING OF ST. AMBROSE W. A.

The annual meeting of the W. A. of St. Ambrose Church will be held in the Parish hall on Friday afternoon, Jan. 8, at 2:30 o'clock. All duly members of the congregation are cordially invited to attend.

Alberta Municipalities Levies on Taxes

Something unique in municipal administration has come out of Alberta, that is being done generally. A report to the Union of Municipalities shows that the municipal district of Southern Alberta, Southern Alberta, did not have to pay any taxes. The report was carried over from 1923 to make further taxes for year unnecessary.

SASK. WHEAT POOL IS SAVING FARMER

For the first time in the history of the grain pool organizations in the prairie provinces, the Saskatchewan Wheat Pool has been instituted against a farmer for breach of contract.

The Saskatchewan wheat pool has begun a suit for \$750 damages against John R. Zarowski, of the Southern Alberta district for non-delivery of his produce under his agreement with the pool.

Zarowski is defending the action charging that the Saskatchewan wheat pool is illegally carrying on business as a primary grain elevator.

WOULD DRILL FOR OIL IN CITY OF MEDICINE HAT

A. E. Roth, of Oklahoma, has made a proposition to the city of Medicine Hat to allow him to enter into negotiations with the city, to drill a hole 3,000 ft. on the city oil holdings, for oil.

The proposition submitted by Mr. Roth is similar to the one made by W. C. Thompson last year. The proposition is considering the proposition.

NEW WHEAT POOL MANAGER AT WORK

R. D. Purdy, newly appointed manager of the Alberta Wheat Pool, assumed the duties of his position yesterday. Mr. Purdy recently came to Calgary from Edmonton where he held the position of manager of the wheat pool made vacant by the death of Chester M. Elliott.

TO LIFT EMBARGO ON THE U. S. & CANADA

Prospects of the early removal of the embargo against cattle from the United States and Canada are very bright, it was announced here yesterday.

For two months there has been no outbreak of disease in the United States and in the western states the outbreaks occurred most recently in cleanup country where they were carried out, apparently with success. Since the original outbreak in California last summer, Canada has had no current epidemic of disease at short or intervals has been quiet.

During November and December there were no new outbreaks.

Local Military Drill Is Well Under Way

The military drill of the First Alberta Regiment is already well under a good start. Drilling commenced last Friday evening with a turnout that surprised the officers. At the second drill on Monday following the first were almost completed and now there are only a few vacancies. If there are any wishing to join this company they must be hand at the army camp for the drill and give the names to Lieut. Hargrave, the officer in charge.

Sgt. M. Osgood is conducting the drill. He is well qualified for the work and already the men under him are making excellent progress.

The appearance of so many old members of the company in the ranks and the interest they are taking in the company must be gratifying and encouraging to the officers.

Drills will be held regularly on Monday, Wednesday and Friday during the drilling season.

SCHOOL NEWS

School reopened for the spring term on Monday, January 25th, with a full attendance of scholars, some new ones being added to the enrollment.

Mrs. C. Martin is in charge of grades 3 and 4 this term, in place of Mrs. C. Martin, who resigned shortly before Christmas.

Mrs. Murphy is taking charge of the primary room in the absence of Mrs. Martin.

Arrangements were made for wreaths to be sent as a mark of the sympathy of the staff and pupils on the occasion of the funeral of the late A. Hicks.

Promotions at the beginning of the term were as follows: Mrs. Hicks and Marie Quinn were promoted from grade VII to VIII. Mrs. Hicks' children, of whom a list will be given later, were promoted from Miss Hicks' room to Miss Stevens' room. The enrollment at the school is still expected to be very large.

The standing of the high school students for the months of November and December, as a result of a test held shortly before Christmas, is as follows:

Grade XI: 1. Kathleen Dunlop, 2. Edmund Verne, 3. Edna Verne, 4. Margie Dorn, 5. Lucille Hargrave, 6. Bonnie Davidson, 7. Margaret Peterson, 8. Preston Martin, next placed, Margaret Smith.

Grade X: 1. Marjorie Bell, 2. Leonard Hicks, 3. Margaret Martin, Ernest McLean, 5. Sidney Watts.

Grade IX: 1. Isabel Cox, 2. Lennie Evans, 3. Margaret Smith, 4. James Plender, 5. Howard Duffield, 6. Kenneth McKay, 7. Violet Wright, 8. Bruce Dunlop, 9. Marjorie Wright, 10. James Watson, 11. Wilfrid Thompson, 12. Melville Coland, 13. Anna Lohde, 14. Ada Verne, 15. Langley Stone. Not placed, Agnes Jones.

AFTER RAILWAYS FOR PEACE RIVER DISTRICT

"To my mind the opening up of the Peace River country is the most important and I would, in fact, go so far as to say that it will redemptive," declared Premier Greenfield in an interview in Winnipeg.

I am not, however, prepared to say what railway extensions will be required or whether the Pacific Great Eastern will play an important part in the proposals," Mr. Greenfield added.

Premier Greenfield and Premier Oliver of B. C. are on their way to Ottawa to Intervent Dominion officials in connection with the railway development of the C. N. and the Pacific Great Eastern.

Churches

ST. AMBROSE CHURCH
Rev. J. P. Cox, S.T.M., Vicar.
At the time of going to press it was reported that the church was open as services next Sunday. Any interested might phone G. H. Worts late in the week.

GORDON MEMORIAL PRESBYTERIAN CHURCH
Services will be held as usual next Sunday morning and evening at 11:00 a.m. and 7:30 p.m.
Sunday school at 2 p.m.
Annual meeting in Gordon Memorial church on January 12th.

CHURCH OF THE BRETHREN
Sunday School, 10:30 p.m.
Preaching, 11:30 a.m. and 7:30 p.m.
Prayer meeting every Wednesday evening at 7:30 p.m.

ST. MARTIN'S CHURCH
Celebration of Mass 2nd and 4th Sundays of each month at 8:30 a.m. by Rev. Father Poirier.
Advertise in the Review. It pays.

T. A. Hicks Dies Suddenly in Calgary

It is sometime since the citizens of Redcliff received such a shock as the late Sunday afternoon when the news spread around that T. A. Hicks, a merchant of this town for the past ten or eleven years, had died suddenly in Calgary. It was hard to realize and many thought there must be some mistake as it was not generally known that Mr. Hicks was out of town.

Mr. Hicks went to Calgary last Wednesday on business, intending to return Saturday but when he did not come back Saturday evening it was thought naturally that his business had detained him longer. On Sunday afternoon, however, word was received that he had been found dead in his home in a Calgary address.

Mrs. Hicks and the family went to Calgary where the funeral was held on Monday, Wednesday and Friday.

The late T. A. Hicks was pioneer of Redcliff having come here early in 1921 and resided here ever since. During all that time he has been looked upon as one of our leading citizens. He always took a keen interest in the town and district and served on the town council for many years. He was incorporated as a town. Although at all times cheerful, deceased was a home body. He was a devoted husband and thoughtful father and father.

He was a widow deceased leaves three children, two daughters and a son all of whom have been living at home. He leaves a large family of the entire community goes to his death and bereavement.

Growth in the Dairy Industry in Alberta

The total amount of creamery butter manufactured in the creameries of Alberta in 1925 was 17,500,000 lbs., as compared with 17,000,000 lbs. last year. There were some 87 creameries operating compared with 75 the previous year. The total amount of butter produced in 1925 was 4,000,000 lbs., compared with 3,500,000 lbs. in 1924. At all this butter is sold outside the province, chiefly in Great Britain and the Orient. There is a steady increase in the quality of both cream and butter as a result of the cream grading system.

REGARDING SERVICES IN ST. AMBROSE CHURCH

As Rev. J. P. Cox is still confined to his home and as no definite arrangements have yet been made, it is not known when services in St. Ambrose church will be held.

Those interested may find out possibly from Mr. H. Worts.

BRUCE-PATON

At St. John's house, on New Year's Eve, December 31st, 1924, Miss Bruce-Paton, daughter of Mr. Bruce, of Medicine Hat, was united in marriage by Rev. Thomas Wilson, B.A., pastor of St. John's church.

Mr. Bruce will make his home in Redcliff.

Weekly News Bulletin

Issued by Publicity Commissioner, Government Buildings, Edmonton

Big Paganet for Calgary
Following request received from the Provincial Publicity Office for officials of the Canadian National Railway, the Alberta motion picture commission has been authorized to make a film of the C. N. R. buildings at Winnipeg during the summer.

Conference on Railways
Premiers of Alberta, Saskatchewan and Manitoba, will meet in conference with the C. N. R. officials in Ottawa on Jan. 10, to discuss the future of the railway line in the north.

More Cattle for Japan
A shipment of 500 head of Alberta beef cattle will shortly be made from the Peace River district to Japan.

Alberta's first large shipment of beef cattle will shortly be made from the Peace River district to Japan.

Provincial Seed Fair
The annual Alberta seed fair will take place in Calgary, January 20th to 25th, and entries are now being received.

Creamery Short Course
A short course in creamery management, which has been organized by the Alberta Dairy Producers' Association, is planned for January 5th, to last until January 24th. There is no entrance fee for this course.

100,000 Saw Alberta Pictures
According to advice received by the

Shooting Match at Local Army Range

Considerable excitement prevailed at the indoor range in connection with the local army last Wednesday evening, when representatives of the infantry accepted a challenge from the mounted men for a company shoot. Teams with six a side were picked and the competition started sharp on time.

Hand was captain for the infantry and Major Snodden for the mounted. The other members of the teams were: for infantry, Messrs. Pearson, T. Osgood, Messrs. Messrs. Shaw and Cann, for the mounted, Messrs. C. Chapman, Cox, Mudge, Messrs. and Waters.

The scoring was very close all through but when it was all up it was found the infantry had won by a score of 181 to 180.

We understand arrangements are being made for several similar shoots during the winter months.

Churches Are Going Strong for Union

Two hundred and fifty-eight churches throughout Canada had voted to join the United Church of Canada, and 28 voted non-concurrence, up to the time of the meeting.

The vote was taken by the Church Union Bureau of Information. The vote by province was as follows:

British Columbia 16
Alberta 16
Saskatchewan 16
Ontario 88
Nova Scotia 1
Prince Edward Island 1
Total 258

Brooks Turkey Sale Better Than Last

Returns secured from the co-operative carrier of turkeys shipped from the Brooks market, the total number of turkeys, much different from last year.

The best price offered by P. Burns & Co., Calgary, for turkeys, was 10c per lb. for turkeys, much different from last year.

At St. John's house, on New Year's Eve, December 31st, 1924, Miss Bruce-Paton, daughter of Mr. Bruce, of Medicine Hat, was united in marriage by Rev. Thomas Wilson, B.A., pastor of St. John's church.

Mr. Bruce will make his home in Redcliff.

At St. John's house, on New Year's Eve, December 31st, 1924, Miss Bruce-Paton, daughter of Mr. Bruce, of Medicine Hat, was united in marriage by Rev. Thomas Wilson, B.A., pastor of St. John's church.

Mr. Bruce will make his home in Redcliff.

Liquor Profits Are Over Million Dollars

Profits of over a million dollars will accrue to the Province as a result of last year's operations under the new Government Liquor Control Act.

General Manager of the Liquor Control Board stated that it is not possible to make a close estimate of the net business resulting from sales of liquor since the Act came into force on May 15th. From that date to December 31st, profits are given as follows:

Govt. Vendors' share \$ 682,460
Retail taxes 279,444
License fees 89,008
Permit account 89,117

Preliminary Estimate of Alberta Production

The preliminary estimate of the Provincial Department of Agriculture for the value of agricultural production in Alberta for 1925 is \$228,449,507.40 as compared with \$228,449,507.40 for 1924.

This estimate is subject to revision as later returns are received and revisions in details made. Though the general production in field crops was not so high as last year, the increase in the value of livestock and poultry production was sufficient to make up for the loss.

Notable increases in the value of livestock and poultry production were noted in the preliminary estimate of wheat production in 1925 in round figures at 62,700,000 bushels, but this may be revised when later returns are received.

Bad Accident at The Review Office

Accidents happen in the best regulated families and sometimes in newspaper offices as well.

After our lapse of last week our attention was drawn to the fact that the Review office had not given any report of the play "A Country School Teacher," given in Gordon Memorial Church, 3 weeks ago under auspices of the Ladies Aid.

At first we thought our informant was joking as we remembered distinctly having written the report but in referring to our file could not find the article.

After investigation the only conclusion we can come to is that, it being the end of the year we left both the front and back doors open so that there would be no confusion in the front office while our attention was being given to the report. Our supposition is that during the night the pressman, a gentle zephyr came along and took the "Country School Teacher" with it.

This supposition was strengthened by the finding of a text book, a few handkerchiefs, a pocket watch, a sweater and a piece of pie, in the back yard.

This is an accident which sometimes happens in a newspaper office, especially in windy weather.

However, as the old lady who was dancing yesterday at midgig, it is "never too late to mend."

The Review office is a quiet place, it keeps with the prediction of the advance notices and furnished ample proof of its character by the fact that while Mr. Walter "Ma" and Mr. B. D. D. "Ma" could not have been improved upon. Their portrayal of the plain, simple honest life was most realistic and well done.

The church was well filled for the occasion and the Ladies Aid netted a tidy sum as a result.

Grain Inquiry Report is Completed

The report of the Royal Grain Inquiry Commission, which was instructed to make a full and searching inquiry into all aspects of the grain trade in Canada, has been completed.

It is understood that the report is the most complete survey ever made of Canadian grain trade conditions.

The Commission, under the chairmanship of Justice W. F. Turgeon, has been at work for some time and the report takes up several volumes.

The report is the most complete survey ever made of Canadian grain trade conditions.

THE SUGAR INDUSTRY DEPENDS ON K. RATES

The sugar beet industry in the south country is dependent upon the kind of freight rates the C. P. R. gives to the producers. If the rate is not low enough there will be no industry.

Some day there will be good roads in that part of the country, and the beet will be hauled the short distance by truck, and then there will be no worry about the freight rates.

GRAIN MARKET

A good demand for wheat in Winnipeg yesterday with indication of a further rise in price. The market was higher and higher, gave the market a lift and prices worked up about 10c.

Play in Empress Theatre Thursday 15

"The Return of the Spinster" is the subject of the play which is being put on in the Empress, next Thursday evening, Jan. 15th, under the auspices of St. Andrew's W. A.

This play is a sequel to the "Spinster's Convention," which was put on some time ago by the same organization. Those who saw that play will know there is a good evening's entertainment in store for them next Tuesday evening.

If it is to judge from the cost, there will not be a dry minute through out the show. There are about thirty characters in the cast and each will try to create a few more laughs than the others.

Programs are being printed and will be for sale for 50c. Each program contains the holder to admission to the entertainment. Children half price and will pay their admission to the door. Don't miss seeing this play, if you do you'll be sorry.

Redcliff Kennel Ships Pups to Coast

Geo. Lyallist, who has now quite a number of prize winning wire haired terriers and dachshunds, is shipping five pups to Vancouver.

These four are wire haired terriers one dachshund. The dogs were shipped to Hill Oats, a former resident of Redcliff, who is now in the coast.

The largest kennels in B. C. Mr. Oats has a store in which he handles all kinds of animal products. He has a dog in which he handles all kinds of animal products.

The dog in which he handles all kinds of animal products. He has a dog in which he handles all kinds of animal products.

COURT REFUSED BANK 6 PER CENT INTEREST

Judgment has been handed down for \$107,540 by Mr. Justice Walsh in favor of the Canadian Bank of Commerce. The bank had asked for 6 per cent and J. O. Reid of Champion, Alberta, the action being brought on a promissory note.

He court refused to grant interest. The bank asked for 6 per cent on the ground that such rate is allowed by law. The court, however, refused to grant interest on the ground that the rate of interest is not allowed by law.

CHURCH UNION

LAATEST returns from all over Canada would indicate that an overwhelming majority of the Presbyterian churches are voting in favor of entering the union. For a time before voting took place it looked as though the leaders of the anti-union were making headway but the methods they adopted and the attitude they assumed were not of the kind that inspires confidence or enthusiasm. Because of these methods many who were undecided took active stand for union. This often happens in matters of controversial nature.

When men who have never been heard of before as leaders in church work, come out as blackguard and libel those who have devoted their whole lives to the service and welfare of the organizations with which they are identified, then they are on the level with boomerangs. There is no doubt that was the case in this instance. Church union would have carried in the west anyway but the actions of some of the leading opponents made the vote more decisive.

THE LIQUOR PROFITS

THERE is now a movement on foot among the cities and larger towns to have the legislature divide the profits from the sale of liquor among the municipalities of the province where there are licenses.

While there is no doubt that the towns and cities have a reasonable claim for a share in these profits, yet this would likely open up the way for rural municipalities, in which there are no licenses, to make similar demands. In fact some are already talking that way. Most argue that although they have no licensed places within their boundaries their people sometimes patronize the vendors, hotels and clubs. Because of this they claim they are entitled to share in the profits.

There is some ground for this argument but it looks as though the government and the commissioner will experience some difficulties in arriving at a system of division which will be satisfactory to all concerned.

In our opinion all would be as far ahead if they would let the government keep the whole works on condition that they would cut out a few of the things for which the public is now being taxed.

NOT TO BLAME

IS the Minister of Agriculture at fault because of the Lethbridge Northern Irrigation district has fallen down financially and the Province will have to make good its guarantee?

We believe he is not to blame in the slightest, and in fact, some of his very strong critics are far more culpable.

The government inherited the Lethbridge Northern white elephant from the Liberal government. The Liberal government was practically forced into guaranteeing the bonds by misguided propaganda.

The chief propagandist of that day are now viciously assailing Hon. Mr. Headley.

The government has a problem to solve that is a difficult one. The Canadian Pacific railway, in a far more advantageous

position, inaugurated in an heroic struggle to attain a solution to a similar problem, and so far has not met with success after several years of great effort.

Probably the propagandists may be able to supply the "Open Sesame" to the locked door of success.—Bassano Mail.

Newspaper editors are often asked by their readers why they don't go after this, that and the other fellow and him—in the paper. "Jack Canuck," a magazine published in Toronto, undertook to be judge jury and comel in a certain case before the Toronto courts and settled the case, so to speak, out of court. At last settled it to its own way of thinking. For his trouble the Editor drew six months in jail. This paper was fined \$1000 and sequestered until the fine is paid. This may give newspapers and magazine readers some idea of why editors have to exercise a little precaution at times.

Possibly those who blew the fire whistle last Thursday morning thought they were doing something clever. As the town has to pay for such pranks, they can hardly be considered very clever. Besides there is the old story about the boy who was always crying "wuli."

KID? MURDER IS FOUND GUILTY OF MANSLAUGHTER

Kid McCoy, at one time a most popular pugilist, was found guilty of manslaughter at the Superior Court

in San Francisco last Monday. This case has created considerable interest and has been followed closely throughout the trial. McCoy was charged with shooting Mrs. Thomas Mary last August.

The jury which sat on this case was composed of nine women and three men. They were locked up for 78 hours before a decision was reached.

(This advertisement is not inserted by the Alberta Liquor Control Board, or by the Government of the Province of Alberta.)

BOW SLOPE FARMER IS WINNER OF ALFALFA PRIZE
After farming in Alberta five years, Nick Chyella, a Norse-American from Medicine Hat, won the international title by winning the championship for alfalfa at the great Chicago Show. Chyella farms on the Bow Slope in the C. P. R.'s irrigation block in the Brooks district and has made a special study of alfalfa, which thrives in that area.

The feckless recklessness of certain motorists was recently strikingly illustrated at a public crossing on the Canadian Pacific Railway line at Blind River, Ontario, when a speeding auto approached the crossing so rapidly that the driver was unable to pull up, and ran his car into the side of a train which was passing at the time. Fortunately, no one was injured.

The most successful year enjoyed by the Canadian Pacific Great Lakes Steamship Service in freight shipments since 1918 is reported by Mr. Duff, manager of that service, for the season lately closed. The whole fleet of passenger freighters for the first time since the outbreak of the Great War, has been constantly employed during the seven months in which the lakes are open. A feature was the very large increase in the export flour business, some 75 per cent of the 300,000 tons of flour carried eastward by the service having been destined for export to other parts of the world. A particularly good month, the ships having been transported in that month 58,000 tons of flour and second milled stuffs and grain alone.

Why does steam run an engine?

—because steam is water vapor, expanding under heat. Trying to escape from the cylinder, it pushes outward with mighty power and moves the piston. Many take

NORTHERN GATEWAY IN ANNUAL FETE

The Pax, Manitoba, the Gateway of the North, is all agog over preparations being made for the eighth annual dog derby, which is to be run on February 23rd, 1926. Photographs show the start of the annual 200-mile derby; the Gateway arch, symbolic of The Pax and its surroundings; and a group of Indians on their long trek from the north to join in the week's festivities.

THE unwritten law of northern trails, that a dog master shall never use a whip on his dogs during a long race, is strictly obeyed in the annual 200-mile dog derby, run at The Pax, Manitoba, according to drivers, who have taken part in this unique event. Shorty Russell, winner of the 1924 contest, obeyed this law rigidly, and although he carried a whip, it was not once brought into play. Russell declares his dogs will do better work with kind treatment than otherwise and therefore never whips when on a long journey. During the 1924 derby, Russell fed his dogs three times while making the 200-mile run. The first time was at 8 p.m., seven hours after starting; again at 10:20 p.m. when he turned for home, and the third time at 5 o'clock in the morning, when about forty miles from the finishing line. He stopped only 17 minutes at the 100 mile mark and

finished the course in the record time of 23 hours 52 minutes.

Northern dogs on the trail are not neglected in the matter of food; for instance, Russell's dogs received rations of chopped hamburger steak, mixed with chopped hard-boiled eggs and melted into a soup with bacon fat to prevent freezing. This food having been prepared beforehand no time was lost at feeding stations.

Russell used a sleigh which is typical of Alaskan winter vehicles. It is 12 feet long, 30 inches wide and 3 feet high, with steering handles and weighs about 30 pounds. It is strongly built of selected birchbark, with joints reinforced with "walrus" or raw moose-hide. It is equipped with a stout footbrake. The runners, which are two inches wide, are made of hickory instead of steel, as this grips the snow less than metal shoes in belm-are weather.

THE REDCLIFF REVIEW

Research Work In Mental Hygiene

The Care of the Insane and the Mentally Defective
(By Dr. J. F. Shaver)

The Canadian national committee for mental hygiene has held its annual meeting in Montreal and has decided to spend \$200,000 a year for five years to research work in the field of mental hygiene. The research work will be undertaken with a view to bring about a more humane and scientific method of treatment of the insane, the epileptic and those unfortunate from birth or on an early stage of life in a serious degree mentally defective. The study of the mind has reached the \$200,000 mark and the Rockefeller Foundation has donated \$75,000. The committee hopes ultimately to raise half a million.

To succeed the late Dr. C. C. Clark, the committee has appointed Dr. Charles M. McKelvey, Toronto (formerly assistant medical director) in medical direction. Dr. Charles M. McKelvey, Montreal, is president. The committee has already made mental hygiene studies in most of the provinces and has drafted or outlined policies based on these surveys for the guidance of municipal governments and the care of the mentally abnormal and subnormal. It plans in the coming years a special study of children in mental institutions.

The special survey council of Canada is the outstanding national agency co-ordinating with the national committee for mental hygiene. Through its personal letters, its periodicals and local branches, it educates, informs and supports, and its press branch reaching 1,600,000 readers twice a week, the council disseminates information by publishing and mounting public opinion, and in encouraging governments to provide adequately in education, in welfare and in the care for their mentally handicapped children.

It is being accomplished by the "mental check" for abnormalities in the regular public schools. There are 100,000 children in the public schools in Canada under special instruction. The removal of these children from among normal children to the schools is a very great advantage in the normal children and their families. The removal of these children from the schools is a very great advantage in the normal children and their families. The removal of these children from the schools is a very great advantage in the normal children and their families.

When a large number of the mentally defective can no longer be kept in the institutions, they will be sent to the homes. Under such conditions they will continue to be at present. The removal of these children from the schools is a very great advantage in the normal children and their families. The removal of these children from the schools is a very great advantage in the normal children and their families.

Has Become French Citizen

Calls in Siberia Changed Nationality
Of German Soldier

Ten years to a day since his departure from Strasbourg to join the German army, Charlie Weiss, a Frenchman as he is called, has returned to his home town.

Parisian Has Unique Pipe

Charles Lacombe, a mechanic, who drove the first racing auto in Europe, has appeared on the Paris boulevard with a large pipe that has a miniature car chiseled on the stem. He has received orders of fabulous sums for the unique pipe from cigarette manufacturers in this country.

For Farming in B.C.

Recent statistics published show that there are now twenty-nine men from British Columbia, who are engaged in fox farming, was an unknown industry.

Most people had faith with their neighbors in order to get on with their neighbors who had faith with them.

Got Inspiration From Rockies

Artist Arriving London With Collection of Water Colors

A resident of the Canadian Rockies now has a collection of water colors on exhibition in London which critics declare is the work of Turner.

He is Charles John Collins, whose home is on Shawap Lake, about thirty miles from the Canadian Junction in British Columbia.

Fourteen years ago he was an unhappy and discontented person, living in a cottage in the English lake country. Then the late Lord Northcott, who was his neighbor, invited him to his own home for an exhibition of paintings from which he realized enough to pay his here in Canada.

He immediately headed for Shawap Lake, where he built a log shack with his own hands. Later, when success came to him, he improved a grand place for his wife. The artist's dream has been realized.

Home For Carrier Pigeons

A Home for World War Receiving Good Care

A home for World War receiving good care, at the army pigeon loft at Ross Bay, British Columbia.

The loft, which has 500 birds at the time, all of which saw service overseas, are three home birds, two of which were captured in the air.

Rubber Taken To Europe About 1735

Was Discovered in 1489 in Haiti By Columbus

Columbus, or India rubber, an elastic substance that existed in various forms in the Americas, was discovered in Haiti by Columbus in 1489.

The discovery of rubber in the Americas was a great discovery. It was used for many purposes, including the making of shoes and the making of rubber bands.

Like Oil-burning Vessels

New Prefers Them To Coal-Burning Ships

Oil-burning vessels eliminate the most grumbling job on board ship—that of stoking the furnaces.

The oil-burning vessels are a great improvement over the coal-burning vessels. They are faster, more efficient, and more comfortable for the crew.

Famous Organ Needs Repairing

Fixed Started For Instrument in Notre Dame Cathedral

The famous organ of Notre Dame Cathedral is in danger of being irreparably damaged through lack of repair. A committee has been formed to raise money for the repair of the organ.

Encouraging Trade Figures

Considerable Ground For Optimism As to Business Conditions

"An examination of the trade returns for the last twelve months reveals a very hopeful situation," states Mr. Thomas A. Low, minister of trade and commerce, in a recent statement.

"Canadian trade figures showed on September 30, at the conclusion of the first six months of the year, a much more buoyant tendency than was the case a month earlier," he states.

"In export trade, September last was the best month the Dominion has had in four years; and shipments during this period of thirty days of Canadian products to other countries exceeded the shipments during September of last year by nearly \$11,000,000."

The trade figures for September, however, were not as good as those of the corresponding month of the preceding year.

An examination of the figures for the half-year also discloses ground for optimism, added Mr. Low. The Dominion's exports exceeded last year's record showing for the six months ending in September by \$2,000,000.

So that, even if there is no further gain, this year's record will surpass all preceding high levels, except those attained under the artificial conditions that prevailed during the later years of the war and following its conclusion.

With the above gain in the first half of the year and a strong tendency upward still in evidence, a further gain during the second six months may be reasonably expected.

The so-called "Latinas" found among the Indians of the Americas is a subject of interest to many people.

The "Latinas" are a group of people who are of Latin descent and who are found in the Americas.

Are Dropping Theory Of Monkey Ancestry

Scientists Believing Man Is Not Creature Of Forest

Scientists are gradually dropping the theory that the human race sprang from the monkey family, according to Dr. Frederick H. Norris, chairman of the geological section of the American Museum of Natural History, addressing the Royal Canadian Institute, Toronto.

"Scientists are coming to believe that an arboreal ancestry of man would have remained arborescent. In the deep jungle, while erect man, with his long padded feet and long legs, is a creature of open spaces—he belongs to the ground, not to the trees," Dr. Norris said.

"He related his experience during a trip to Asia, the continent which he believes to have been the birthplace of the human race."

Lord Birkenhead Writes Rapidly

Brilliant Author Accomplishes Much With Very Little Effort

Lord Birkenhead, who has just produced another book, "Common Sense," is a man of few words.

He can dictate more neatly than most people can write, with the result that his books are of enormous amount of work with little effort.

When he wanted to get much, not having a book, he went to a publisher and asked if he could write some books for him.

"I was told," said the publisher, "that you were one of the best writers in the world."

A Record Butter Output

Production More Than Doubled In Some Parts of Saskatchewan

Another record is established by the industry in Saskatchewan, the October output of butter, reaching a peak of 1,129,010 pounds, as compared with 684,240 in the same month last year.

The increase of 64.4 per cent. over the October, 1922, output.

From January to October this year the aggregate output of creamery butter in the province was 12,159,360 pounds, compared with 5,671,588 pounds during the first 10 months of 1922.

This represents an increase of 2,112,000 pounds, or 35.9 per cent.

Production in the central portion of the province has been more than doubled for October, the figures for this area being 584,040 pounds in October, against 212,651 pounds the same month last year, an increase of 183.3 per cent.

In the southern section of the province the production for the month totalled 214,000 pounds, compared with 193,354 pounds, October, 1922, an increase of 10.6 per cent. While production in the northern part of the province was 340,960 pounds last month, in comparison with 204,371 pounds the same period last year, an increase of 63.2 per cent.

The production of creamery butter is usual in Saskatchewan between June and August, inclusive, but this is the first year production has exceeded a million pounds in October. A substantial increase in creamery production for November of this year is anticipated.

Expert Will Survey Palestine Real Estate

Trouble Caused In Holy Land By Disputed Titles

A complete real estate survey is the latest report to be introduced in the Holy Land by the British administration, which anticipates the employment of an expert who was lately sent to the Egyptian Ministry of finance and previously inspector of the survey department of that country.

The survey will advise the government on the completion of the land survey of Palestine and on the best method of undertaking a land settlement.

The agricultural progress of Palestine has been hampered by the existence of many disputed land titles and undetermined boundaries, as well as by the first year production has exceeded a million pounds in October.

The agricultural progress of Palestine has been hampered by the existence of many disputed land titles and undetermined boundaries, as well as by the first year production has exceeded a million pounds in October.

Climate Changed By Volcanic Eruption

Records Show Cold Season Followed Activity of Volcanoes

Records show that the world, from the year 80, when Pompeii was destroyed by Vesuvius, reveal the fact that serious disturbances of climate have followed great volcanic eruptions.

In cases too numerous to be coincidental the eruption of a volcano in any part of the world has been followed by one or two years markedly colder than the average.

Recent volcanic activity accounts for the fact that the year 1912, when the eruption of the volcano of Katmai, Alaska, took place, was a particularly cold year.

Her many friends will be glad to learn that Mrs. J. E. Ferguson, who has been in the Medicine Hat hospital for the past three weeks, is now much improved.

Owing to conditions locally the Box Springs picture show has closed down for the present. It will open again as soon as conditions warrant.

During the past week the roads between here and Medicine Hat have been almost impassable on account of the deep snow and drifts. Last Tuesday the first grade made a return trip over the grade and it is now in excellent condition.

The annual meeting of the Box Springs school district, No. 2740, will be held at the Box Springs school on Thursday, Jan. 8, at 2 o'clock, to elect trustees, etc. The Board was well satisfied with the arrangements made with Terra Nova school district for the past two years. Nothing has been done so far regarding future plans.

Last Tuesday evening a number of young people from the Hat got together at a neighborly party and journeyed to the home of Mr. and Mrs. J. Rutherford on the risk near thereabouts. The party was very enjoyable and the evening skating on the ice. They report an enjoyable time and were greatly in luck to be favored with such a nice evening.

According to reports several farmers in the Box Springs district are thinking of going into the sheep raising industry. Already some have started. Mr. H. Wastie has a nice band of about thirty head and intends to increase the number in the spring. It is reported that Mr. Leach also is deeply interested in the woolly and expects to engage in the business quite extensively next year.

The dance in Cliff hall, on New Year's night, under the auspices of the local L. O. O. F. lodge, attracted a crowded house and proved to be one of the jolliest evenings of the season. The party was very enjoyable and the dancing was very good. The committee in charge to continue for half an hour over this time. This was very indicative that all were enjoying themselves.

A WEEKLY MAGAZINE of what the people think, say and do

Grand Subscription Campaign

\$50,000
MORE OR LESS
IN CASH PRIZES
Free to Subscribers
A COMPETITION OF SKILL

How many words in the English language can you make from the words—

"Jack Canuck, Toronto"

No proper names are to be used. Webster's dictionary will decide. In the event of ties, prizes will be divided pro rata.

YOUR SKILL MAY WIN YOU A FORTUNE

With your help we are going to make JACK CANUCK the greatest of all Canadian magazines, a magazine fearless in criticism, untrammeled by the big interests, devoted to the common people.

OUR OBJECTIVE IS 100,000 NEW SUBSCRIBERS

Cut out the form below, fill in your name and address, attach 14 to your list of words, enclose the regular subscription price of \$5.00 per annum and mail it to Circulation Department, Jack Canuck Publishing Co., Limited, 319 Bay Street, Toronto, and your little investment may make you a fortune. Mark your envelope "Cash Prizes."

The amount of money to be divided will be based on the number of subscribers received. Thus, if the objective of 100,000 new subscribers is reached, the sum will be \$50,000.00, divided as follows—

To the first subscriber sending in the largest correct list	\$20,000.00
To the second subscriber sending in the largest correct list	10,000.00
To the third subscriber sending in the largest correct list	5,000.00
To the fourth subscriber sending in the largest correct list	2,500.00
To the fifth subscriber sending in the largest correct list	2,000.00
To the sixth subscriber sending in the largest correct list	1,500.00
To the seventh subscriber sending in the largest correct list	500.00
To the eighth subscriber sending in the largest correct list	300.00
To the ninth subscriber sending in the largest correct list	200.00
Eighty prizes of \$100.00 each	8,000.00
TOTAL	\$50,000.00

Eighty-Nine Prizes - 89 - Eighty-Nine

Competition closes on the first day of March, 1925, at 12 o'clock p.m. Rush your entry and get a place among the big winners.
